To find out more information on Katana Sports Batteries call
1300 362 287

CenturyYuasa Batteries Pty Ltd, 37-65 Cobalt Street, Carole Park, Qld 4300.

Whether you're cruising the highway, taming Australia's extreme off road trails, or riding waves out on the open water, Katana has the battery solution.

Choosing the Right Battery

An engine and battery are designed to complement each other and although some may look similar, not all batteries are equal. It is the internal, unseen components which make Katana stand out from the rest.

Manufactured to the highest international standards from durable internal components and the latest engineering techniques, Katana sports batteries are designed to provide reliable starting power and performance when it is needed the most.

Featuring a comprehensive selection of both Maintainable and Maintenance Free VRLA (Valve Regulated Lead Acid) batteries, Katana sports batteries are suitable for a diverse range of applications including:

- MOTORCYCLES • SCOOTERS • ATV'S
- WATER CRAFT • UTILITY VEHICLES

Performance Guaranteed

Katana sports batteries are supplied by CenturyYuasa Batteries, Australia's oldest battery manufacturer and an affiliate of the world renowned GS Yuasa Corporation.

As one of the worlds largest battery manufacturers and a world leader in terms of product quality and innovation, Katana batteries are developed from one of the most advanced technical resources and product ranges in the world.

Each battery in the Katana range is backed by a 12 month national warranty, and supported with one of Australia's most comprehensive sales and distribution networks.

This ensures access to locally held, readily available products and services from a network of battery specialists, on hand to provide expert advice and support on a range of battery issues.

MAINTENANCE FREE VRLA RANGE

A high performance battery for today's high performance machines. Featuring the latest in battery design and technology, Katana MF VRLA batteries deliver superior starting power, require no-ongoing maintenance and provide exceptional vibration and impact resistance.

PREMIUM CONVENTIONAL RANGE

A range of dry charged 6V & 12V batteries designed to meet the special demands of more complex machines. Specialist separators, robust internal materials and a power-boosting design, ensures increased power and reduced maintenance.

CONVENTIONAL RANGE

Katana 6V & 12V conventional batteries incorporate durable internal components and special design features to deliver dependable starting power, superior vibration resistance and maximum life.
