

Century
Batteries that last and last

EverRide

- ✓ Superior Starting Power
- ✓ Reliable Performance
- ✓ Longer Life
- ✓ 12 Month Nationwide Warranty*

Suitable for ride-on mowers,
jet skis, generators and
some small cars.

Original equipment battery

Century's EverRide batteries are the latest in small engine starting technology, built tough for Australia's extreme climate and harsh conditions.

Available as a Maintenance Free or Low Maintenance design, EverRide batteries are backed by a 12-month nationwide warranty and supported by Century's extensive sales and distribution network.

* Terms and conditions apply. Refer to individual warranty statement located on battery.

Power and Performance from Season to Season!

Manufactured to the highest standards using the latest engineering expertise, Century EverRide batteries incorporate advanced design features and robust internal components to deliver reliable starting power.

Specialist durable battery plates reduce gassing, water-loss and self discharge to enhance battery life and provide resistance from vibration, corrosion and over-heating.

EVERRIDE U1 MAINTENANCE FREE SERIES

- Calcium/Calcium technology for improved starting power & lower self discharge
- Robust internal components to withstand damage from corrosion and vibration
- Spill proof Maintenance Free design
- Protection against contamination from dirt, dust, grass and salt water

EVERRIDE 12N-24 MAINTAINABLE SERIES

- Reduced self discharge and longer battery life
- Engineered to protect against acid seepage, corrosion and vibration damage
- Specialist separators for high cranking power
- Maintainable design to maximise battery life
