Your Complete Power Solutions Provider

Century Batteries is Australia's oldest and most recognised battery manufacturer with a history of designing, manufacturing and supplying batteries in Australia since 1928. In this time, we have developed the engineering expertise and state of the art manufacturing processes to produce a range of superior quality batteries better suited to Australia's hotter climate and harsh conditions.

From our state of the art manufacturing facility located in Queensland, we produce and supply an extensive range of Low Maintenance and Maintenance Free batteries suitable for use in a diverse range of applications including:-

- ✓ Passenger Vehicles
- ✓ 4WD's
- ✓ Truck and Light Commercial
- ✓ Heavy Equipment
- ✓ Deep Cycle
- ✓ Marine
- ✓ Lawn and Garden Equipment

Keeps you going for longer...

Product Range

Our product range includes one of the most extensive product ranges and technically advanced products available in the battery industry.

Passenger Vehicles

The longer life battery, designed and manufactured in Australia to better suit our conditions. Century Ultra Hi and Hi Performance batteries incorporate industry leading design features and engineering advancements to provide ultra reliability and longer life.

European & Popular Imports

A range of Heavy Duty batteries designed to meet the performance and specialised fitment needs of European and imported vehicles. Calcium Alloy technology delivers reliable starting power and dependable performance.

4WD Vehicles

4WD batteries built tough using incredibly strong internal components, thicker battery plates, puncture resistant separators, and exclusive Platelock adhesives to provide superior vibration and impact resistance deliver superior starting power and extra reserve capacity.

Truck & Light Commercial

Designed for more than just starting power, these batteries are able to sustain constant current loads for on-board accessories. Thicker, durable components provide improved corrosion resistance and longer battery life to deliver what drivers and fleet managers really want – ultra reliability with less down time.

Marine

The ultimate in marine battery performance - made for boats just boats. Manufactured using thicker battery plates, denser active material, extremely robust internal components and Century's exclusive Platelock™ technology to combat wave pounding, engine vibration and transportation by trailer.

Deep Cycle

A comprehensive selection of Flooded, AGM and Gel products manufactured using the toughest internal lead components in the industry and advanced design features to deliver long lasting, dependable deep cycle power.

Heavy Equipment

Manufactured using some of the toughest internal components and materials available in the battery industry, Century Heavy Equipment batteries have the strength and durability to provide superior starting power, enhanced vibration resistance and dependable performance in extreme operating conditions and harsh working environments.

Lawn and Garden

The latest in small engine starting technology incorporating advanced design features and robust internal components to deliver reliable starting power in constant stop start applications. Specialist durable battery plates help reduce gassing, water loss and self discharge to enhance battery life.

Save Fuel and Cut Emissions with Century SmartDrive™ Batteries

Century's new range of lead acid batteries can aid the reduction of fuel consumption and emissions for the latest generation of motor vehicles.

Incorporating revolutionary SmartDrive™ technology, these environmentally friendly batteries work in conjunction with a vehicles' Regulated Charge Control (RCC) system to reduce fuel consumption and cut vehicle emissions by up to 2%.

Suitable for use in all petrol, diesel & gas powered vehicles, SmartDrive™ batteries can be used in all vehicles including those with standard charging systems as they deliver superior starting power and will not affect vehicle performance or reliability.
