

CHOOSING THE RIGHT BATTERY

Marine batteries are not only required to provide sufficient starting power for high compression engines but also deliver power for on-board accessories even when the boat engine is switched off. Understand the requirements of your on-board accessories to ensure you have sufficient power to start your engine and get safely back to shore.

MARINE PRO RANGE	Application	Ideal Power For	Performance	Special Features	Design	Warranty
 <p>Marine Pro 580 (D23RM MF)</p>	Outboard & inboard starting up to 70hp	Starting	MCA 750 CCA 580 AH 65*	» Vibration resistant » Full frame cast plates [^]	 <p>MAINTENANCE FREE DESIGN</p>	 <p>24 MONTH WARRANTY[†]</p>
